Pontoon Arch Sweetwater 22

Full Specs & Pricing at www.atlantictowers.com

Pontoons are the next big thing, and our "Tower In A Box™" Pontoon Arch allows you to mount equipment like speakers and lights on a structure robust enough to carry gear such as kayaks and wakeboards and still tow the largest of tubes.

Built from marine grade aluminum nearly 2 1/2" in diameter the Pontoon Arch installs securely to the structural members of your Pontoon. Not just the deck. Arch fits all pontoons up to an 8'6" beam and custom versions are available for larger Pontoon and Deck Boats.

Find this icon on our website to search thousands of boats outfitted with an Atlantic Tower!

Paddling, Tubing, Boarding, or Skiing Atlantic Towers has both "Tower In A Box™" and Custom Products to make it possible. The owner of this Hewes Craft combined a universal fit fishing arch with proprietary fittings, epoxy and material from our e-store to design a structure that carries kayaks, hunting, fishing, and camping gear deep into the waters of the Canadian backcountry. (No welding required)

Kayak Rack Assembled using our "Tower In A Box™" Fishing Arch and parts & accessories from our Tower Parts Store Hewes Craft Ocean Pro 22

Combine the perfect amount of weather protection and watersports towing capability with the "Tower In A Box™" SunTop & SunTop II. Your choice of either Sunbrella Fabric or a Polycarbonate Hardtop. Both can be fully enclosed.

SunTop Maxum 2500 SE

Full Specs & Pricing at www.atlantictowers.com

DESIGNED FOR WATERSPORTS

Clamp on Kayak Rack on Pro Trampoline T-Top Wellcraft V20 Fisherman

Take your Kayak or paddleboard with you on the water with our line of clamp on and bolt on kayak racks for Arches, T-Tops, Davit Systems, and hardtops.

Pontoon Arch Sweetwater 22

Effortlessly tow a tube even with plenty of equipment mounted to the "Tower In A Box™" Pontoon Arch.

Universal Fishing arch for walkaround fisherman and express cuddy cabins. Designed to fit over Bimini Tops. Standard Arch features plates for radar and multiple antennas.

CHOOSE YOUR TOP MATERIAL ON THE RADIUS OR RADIUS PRO

- SUNBRELLA SOFT TOP
- POLYCARBONATE HARDTOP

Atlantic Towers™ Custom composite Hardtop systems combine the light weight of aluminum with the durability of fiberglass to create unique Custom Hardtops for serious fisherman. Custom designs are a combination of our experience with yours.

Custom Hardtop in Charter Trojan 10 Meter Mid Cabin

“The installation was definitely a two-person job but once installed, it has made a big difference both aesthetically and also in terms of functionality on-board my boat. I now routinely keep a couple of extra rods at the ready and no longer worry about breaking a rod by stowing them in the gunwales or on the deck. My boat sits alongside a number of fairly high end offshore fishing vessels in the Vancouver Civic Marina – Grady Whites and Pursuits – and in terms of quality, the Fishing Arch is at least the equal of the original equipment on those boats.”

Craig Clark

DESIGNED FOR CRUISING

Whether your cruising a few miles to a local anchorage or thousands of miles to an exotic destination, Atlantic Towers™ & St. Croix Marine Products™ have fabricated structures and equipment to enhance your experience, Power or Sail.

- Lift and carry your tender with St. Croix™ Davits or an Atlantic Towers™ Sail Arch.

- Generate Power with solar panels or wind turbines attached to your Arch or Hardtop

- Enclose your Flybridge with a permanent all weather ATL6 or HiLine Hardtop System.

- Mount radar, satellite antenna, search light, and other electronics gear on your Atlantic Towers™ Arch or Hardtop system.

- Carry your Kayaks and Paddleboards.

- *Any other applications you can think of.*
