

## Basic Tools Required for Installation of Atlantic Towers Products

- 1) Quality battery drill with drill bits and driver
- 2) Selection of flat and Phillips screw drivers
- 3) Wrenches for: 7/16", 1/2", 9/16"
- 4) Allan Keys
- 5) 1/4 – 20 Tap
- 6) Caulking Gun
- 7) Saw (hacksaw will do) or tubing cutter

If you own the above tools and are reasonably comfortable with them, you can install an Atlantic Towers "Tower in a Box" structure, plus many Custom Arches and Hardtops as well.
